

## Correction

### Biochemistry

Correction for “SRSF1 interactome determined by proximity labeling reveals direct interaction with spliceosomal RNA helicase DDX23,” by Danilo Segovia, Dexter W. Adams, Nickolas Hoffman, Polona Safaric Tepes, Tse-Luen Wee, Paolo Cifani, Leemor Joshua-Tor, and Adrian R. Krainer, which published May 14, 2024; 10.1073/pnas.2322974121 (*Proc. Natl. Acad. Sci. U.S.A.* **121**, e2322974121).

The authors note that on page 7, right column, third full paragraph, line 17, “However, the proximity-labeling interactome reflects adjacency (up to 10 Å), so not all recovered proteins are necessarily part of a complex with SRSF1 (46)” should instead appear as “However, the proximity-labeling interactome reflects adjacency (up to 100 Å), so not all recovered proteins are necessarily part of a complex with SRSF1 (46).” The online version has been corrected.
